Hindi

English

PROJECTS

- ❖ [Indian National Flag](#) ([view source code](#)) : This is my first project using HTML and CSS only. Basically it is a CSS animation practice project.
- ❖ [Guess the random number](#) ([view source code](#)) : This is a complete frontend project cum game using HTML, CSS and JavaScript with random number generation by machine and guess by human to check it.
- ❖ [Tic-Tac-Toe](#) ([view source code](#)) : This is a interesting game with pure JavaScript, and basically using the array method.
- ❖ [To-Do list](#) ([view source code](#)) : This is a frontend project using pure JavaScript to create a to-do list. (still working now).

DECLARATION

I hereby declare that the information given above is true to the best of my knowledge and belief and nothing has been concealed therein.
